## PROGRAMMING

- Python
- Java (Basic)
- C

## SECURITY TOOLS

- Nmap & Wireshark
- Burp Suite
- Metasploit
- Shodan
- Gobuster & FFUF

## CERTIFICATIONS

**CRTA — CWL**
Cryptography & Network Security — NPTEL
**AI in DFIR — BelkaGPT**

## ACHIEVEMENTS

- 50+ LeetCode problems
- Cybersecurity CTF challenges
- Hack The Box & TryHackMe

## PROFILE

Cybersecurity student specializing in Computer Science (Cyber Security) with hands-on VAPT and network reconnaissance experience. Developed Python security tools, earned CRTA certification, and solved 50+ LeetCode problems. Skilled in Nmap, Wireshark, and Burp Suite with a strong record in CTF and security automation.

## EXPERIENCE

**Python Developer Intern** · Shadow Fox Technologies

- Developed Python automation scripts for data processing and task automation, increasing workflow efficiency.
- Enhanced debugging and problem-solving skills through direct involvement in live project environments.
- Collaborated on software development using Git and GitHub, ensuring version control and code integrity.

## PROJECTS

**CrimeGPT | AI-Powered Legal Intelligence** (Team) GitHub →

*Stack: React, FastAPI, PostgreSQL, Redis*

- Engineered a secure full-stack application with authentication, data management, and evidence-tracking workflows.
- Developed AI-assisted FIR generation and case-linkage analysis modules with secure software development practices.

**MPF – Mobile Penetration Testing** (Solo) GitHub →

*Stack: Python, FastAPI, OWASP Mobile Top 10, Static Analysis, JSON, HTML Reporting*

- Designed a web-based Android security assessment platform for automated static application security testing.
- Built a vulnerability scanning engine to analyze APK files and detect insecure configurations via regex-based pattern matching.

## EDUCATION

**B.Tech – CS Engineering (Cyber Security)**
Parul Institute of Engineering & Technology | 2023–2027 | CGPA: 7.68

**Class XII**
Shree Swami Narayan Gurkul High School | 52%

**Class X**
Shree Sarigam English Medium High School | 69%
